

Title of Project: _____

Program Announcement/Solicitation #: _____

To comply with NIH policy, it is the Institutions responsibility to secure and retain a written assurance from the Principal Investigator (PI) prior to submitting an application to the PHS. While this assurance is no longer required as part of the submitted application, it remains a compliance requirement. Therefore, Hartford Hospital will retain a unique signature and date for each submitted application agreeing to the following.

The Principal Investigator(s) agree;

- (1) that the information submitted within the application is true, complete and accurate to the best of the PI's knowledge;
- (2) that any false, fictitious, or fraudulent statements or claims may subject the PI to criminal, civil, or administrative penalties; and
- (3) that the PI agrees to accept responsibility for the scientific conduct of the project and to provide the required progress reports if a grant is awarded as a result of the application. When multiple PIs are proposed in an application, this assurance must be retained for all named PIs.

This assurance must be available to the sponsoring agency or other authorized HHS or Federal officials upon request.
