

## Membership Has Its Benefits

*Our collective goal is to deliver the highest-quality, coordinated patient care and improve the overall health of populations.*

ICP member physicians have the support of fellow physicians in adapting to the dramatic changes occurring in health care. ICP provides assistance with navigating the new health care environment. Here's how:

- Improving patient outcomes through care coordination and an enhanced focus on quality and health.
  - » Collaboration with Care Managers to improve the outcomes of high-risk patients as well as their overall health and quality of life, while reducing high-cost episodes of care.
  - » Facilitated access to a uniform electronic health record to better coordinate patient care, avoid duplicate testing, measure quality and manage costs.
- Being recognized and rewarded for high-quality care as payment moves away from fee for service to payment for value.
- Participation in establishing standards of care and support in delivering those standards.
- Access to tools to achieve quality measures and sustain cost benefits.
- Participation in contracts negotiated by ICP with commercial insurers, to ensure that physicians are paid for the value they provide, including participation in shared-savings contracts.
- By being high-quality, affordable providers, ICP physicians become the system of choice for patients, employers and payers.

There are no membership dues for ICP. More than 1,600 providers are members of this growing organization.

To schedule a one-on-one conversation or group presentation for your practice with **Dr. James Cardon**, CEO of Integrated Care Partners, or with **Dr. Pat Carroll**, Chief Medical Officer, please call Shaleighne Murphy at 860.972.9063.

---

ICP continues to engage and recruit physicians and forge partnerships with health plans, employers and providers. Our collective goal is to deliver the highest-quality, coordinated patient care and improve the overall health of populations. We continue to seek providers who are equally committed to delivering the best care and interested in the opportunity to participate in the shared-savings deals ICP is negotiating with payers. At no cost to member physicians, ICP also can deliver care-management resources for high-risk patients and the infrastructure needed to achieve quality measures that will allow providers to realize and sustain cost benefits and long-term viability in the changing health care market.
