

Need help paying medical bills?

HHC might be able to help.

Even people with jobs and insurance might qualify for financial help. You might be surprised at how many people qualify!

Ask about a discount

If you receive a medical bill that feels overwhelming, see if you qualify for a **discount**.

HHC's **sliding scale** can make care more affordable. The amount you pay depends on how much money your family makes and how many people are in your family.

Bills from any Hartford HealthCare hospital and providers who are part of Hartford HealthCare Medical Group participate.

Extra help for extra-large bills

Even if you don't qualify for routine discounts, you may be able to get help. If your total medical debt is more than half of your yearly household income, HHC offers catastrophic financial assistance. To get this kind of help, you can add up all the money you owe to any hospital, provider or pharmacy, even those not connected to Hartford HealthCare.

To learn more, call 877.HHC.BILL (877.442.2455), visit the Patient Financial Assistance page on HHC's website or call your local hospital.
