Dear Hartford Hospital Employee:

Our mission is to promote, restore and maintain the health of all the people we serve. In order to do this successfully, among other things, we all must adhere to a high standard of individual and organizational ethical and legal business practices.

Like all of you, I want to know that I work in an organization that is committed to strong ethical standards. Our formal Corporate Compliance Program helps ensure that we stay on course. It provides us the guidance and education we need to retain our solid corporate reputation. It serves to document, to those outside of our institutions, our desire and success in complying with the laws and regulations that govern us, as well as our willingness to support government initiatives to reduce fraud and abuse in health care.

Our Code of Conduct is the cornerstone of our program. The full Code of Conduct is available in every department, in Human Resources, on the Intranet and the Internet. This is your copy of our summary Code of Conduct which, like the full Code, re-affirms the principles that have guided us since our inception in 1854. Please read it carefully and keep it continuously in mind. The Corporation needs the personal commitment of each and every employee to maintain its reputation as an ethical and responsible corporation. If you ever have a concern regarding ethical or legal compliance, whether it involves you directly or indirectly, it is your obligation to report any actual or perceived improper activities to Management, Human Resources, the Director of Compliance or the Compliance Helpline.

Thanks for joining me in this important initiative. Together, we will continue to successfully fulfill our mission.

Sincerely,
John Meehan
President and Chief Executive Officer
